CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements, which reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as “may,” “should,” “could,” “predict,” “potential,” “believe,” “will likely result,” “expect,” “continue,” “will,” “anticipate,” “seek,” “estimate,” “intend,” “plan,” “projection,” “would,” and “outlook,” or the negative version of those words, or such other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about our industry, management’s beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions, and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

There are or will be important factors that could cause our actual results to differ materially from those indicated in these forward-looking statements, including, but not limited to, the following:

- business and economic conditions generally and in the financial services industry, nationally and within our local market areas;
- government intervention in the U.S. financial system;
- changes in management personnel;
- increased competition in the financial services industry, particularly from regional and national institutions;
- volatility and direction of market interest rates;
- our ability to maintain important deposit customer relationships, our reputation, or to otherwise avoid liquidity risks;
- factors that can impact the performance of our loan portfolio, including real estate values and liquidity in our primary market areas, the financial health of our commercial borrowers, and the success of construction projects that we finance, including any loans acquired in acquisition transactions;
- changes in the value of collateral securing our loans;
- risks associated with system failures or failures to protect against cybersecurity threats, such as breaches of our network security;
- deterioration of our asset quality;
- the adequacy of our reserves, including our allowance for loan losses;
- operational risks associated with our business;
- natural disasters and adverse weather, acts of terrorism, an outbreak of hostilities or other international or domestic calamities, and other matters beyond our control;
- our ability to prudently manage our growth and execute our strategy;
- compliance with the extensive regulatory framework that applies to us;
- changes in the laws, rules, regulations, interpretations, or policies relating to financial institution, accounting, tax, trade, monetary, and fiscal matters;
- the impact of recent and future legislative and regulatory changes, including the Tax Cuts and Jobs Act of 2017, the Economic Growth Act, and other changes in banking, securities, accounting, and tax laws and regulations, and their application by our regulators; and
- other risks and uncertainties listed from time to time in our reports and documents filed with the SEC.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in this quarterly report on Form 10-Q. Additional information on these and other risk factors can be found in Item 1A “Risk Factors” of this quarterly report on Form 10-Q and in the section titled “Risk Factors” in our Prospectus that was filed with the SEC on May 3, 2019, relating to our IPO. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise. New factors emerge from time to time, and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

RED RIVER BANCSHARES, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company were prepared in accordance with GAAP for interim financial information, general practices within the financial services industry, and with instructions for Form 10-Q and Regulation S-X. Accordingly, these interim financial statements do not include all of the information or footnotes required by GAAP for annual financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial statements have been included. The results of operations for the interim periods disclosed herein are not necessarily indicative of the results which may be expected for the entire fiscal year. These statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2018, included in the Company's Prospectus filed with the SEC on May 3, 2019, relating to its IPO.

Certain prior period amounts have been reclassified to conform to the current period presentation. These changes in presentation did not have a material impact on the Company's financial condition or results of operations.

Critical Accounting Policies and Estimates

There were no material changes or developments during the reporting period with respect to methodologies the Company uses when applying critical accounting policies and developing critical accounting estimates as disclosed in Note 1 of the notes to the audited consolidated financial statements for the year ended December 31, 2018, that were included in the Company's Prospectus as filed with the SEC on May 3, 2019. In preparing the financial statements, the Company is required to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the Company's financial condition, results of operations, comprehensive income, changes in stockholders' equity, and cash flows for the interim period presented. These adjustments are of a normal recurring nature and include appropriate estimated provisions.

Accounting Standards Adopted in 2019

As of January 1, 2019, the Company adopted *ASU No. 2016-02, Leases (Topic 842)* and the related amendments using the modified retrospective approach. The primary purpose of this ASU was to increase the transparency and comparability among organizations by recognizing a lease liability related to the lessee's obligation to make lease payments based on a lease contract, and a right-of-use asset related to the lessee's right to use the leased asset for the term of the lease. The Company recorded right-of-use assets and corresponding lease liabilities of \$4.9 million at the time of adoption. The required disclosures are included in Note 5 to these unaudited consolidated financial statements.

ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. *ASU 2017-12* permits hedge accounting for risk components in hedging relationships involving nonfinancial risk and interest rate risk. It also changes the guidance for designating fair value hedges of interest rate risk and for measuring the change in fair value of the hedged item in fair value hedges of interest rate risk. In addition to the amendments to the designation and measurement guidance for qualifying hedging relationships, the amendments in this ASU also align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. This ASU requires an entity to present the earnings effect of the hedging instrument in the same income statement line item in which the earnings effect of the hedged item is reported. *ASU 2017-12* became effective for the Company on January 1, 2019, and did not have a material impact on the Company's financial statements.

Recent Accounting Pronouncements

ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. *ASU 2016-13* sets forth the CECL model requiring the Company to measure all expected credit losses for financial instruments held as of the reporting date based on historical experience, current conditions, and reasonable supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost and applies to some off-balance sheet credit exposures. For public business entities that are SEC registrants, the amendments in this update are effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company continues to evaluate the impact of this ASU on the consolidated financial statements and disclosures. In that regard, the Company has formed a cross functional working group and is currently working through its implementation plan which includes assessment and documentation of processes, internal controls, and data sources; model development and documentation; and implementation of a third-party vendor solution to assist in the application of *ASU 2016-13*.

2. Securities

Securities held for indefinite periods of time are classified as AFS and carried at estimated fair value. The Company does not hold HTM securities. The amortized cost and estimated fair values of securities AFS are summarized in the following tables (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value

The number of investment positions in an unrealized loss position totaled 192 as of June 30, 2019. The aggregate unrealized loss of these securities as of June 30, 2019, was 0.63% of the amortized cost basis of the total AFS securities portfolio. Management and the Asset-Liability Committee continually monitor the securities portfolio and are able to effectively measure and monitor the unrealized loss positions on these securities. Management does not intend to sell these securities prior to recovery, and it is more likely than not that the Company will have the ability to hold them, primarily due to adequate liquidity, until each security has recovered its cost basis. The unrealized losses of these securities has been determined by management to be a function of the movement of interest rates since the time of purchase. Based on review of available information, including recent changes in interest rates and credit rating information, management believes the declines in fair value of these securities are temporary. The Company does not consider these securities to have OTTI.

Management evaluates securities for OTTI on at least a quarterly basis, and more frequently if economic or market concerns merit such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost; (2) the financial condition and near-term prospects of the issuer; and (3) whether the Company intends to, and it is more likely than not that it will be able to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Additionally, the Company annually performs a detailed credit review of the municipal securities owned to identify any potential credit concerns. There were no OTTI losses on debt securities related to credit losses recognized during the six months ended June 30, 2019 or the year ended December 31, 2018.

Pledged Securities

Securities with carrying values of approximately \$100.6 million and \$93.5 million were pledged to secure public deposits, as of June 30, 2019 and December 31, 2018, respectively.

Commitments to Extend Credit

Commitments to extend credit are agreements to lend to a customer if all conditions of the commitment have been met. Commitments generally have fixed expiration dates or other termination clauses and may require the payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based on management's evaluation of the customer's ability to repay. As of June 30, 2019, unfunded loan commitments totaled approximately \$245.3 million. As of December 31, 2018, unfunded loan commitments totaled approximately \$231.5 million.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing, and similar transactions. As of June 30, 2019, commitments under standby letters of credit totaled approximately \$11.6 million. As of December 31, 2018, commitments under standby letters of credit totaled approximately \$11.6 million. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Troubled Debt Restructurings

The restructuring of a loan is considered a TDR if the borrower is experiencing financial difficulties and the bank has granted a concession. Concessions grant terms to the borrower that would not be offered for new debt with similar risk characteristics. Concessions typically include interest rate reductions or below market interest rates, revising amortization schedules to defer principal and interest payments, and other changes necessary to provide payment relief to the borrower and minimize the risk of loss. There were no unfunded commitments to extend credit related to these loans as of June 30, 2019 or December 31, 2018.

A summary of current, past due, and nonaccrual TDR loans as of June 30, 2019, is as follows (dollars in thousands):

The TDRs described above did not increase the allowance for loan losses as of June 30, 2019 and June 30, 2018. Additionally, there were no defaults on loans during the six months ended June 30, 2019 or June 30, 2018, that had been modified in a TDR during the prior twelve months.

Credit Quality Indicators

Loans are categorized based on the degree of risk inherent in the credit and the ability of the borrower to service the debt. A description of the general characteristics of the Bank's risk rating grades follows:

Pass - These ratings are assigned to loans with a risk level ranging from very low to acceptable based on the borrower's financial condition, financial trends, management strength, and collateral quality.

Special Mention - This category includes loans with potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan.

Substandard - Loans in this category have well defined weaknesses which jeopardize normal repayment of principal and interest.

Doubtful - Loans in this category have well defined weaknesses that make full collection improbable.

Loss - Loans classified in this category are considered uncollectible and charged-off to the allowance for loan losses.

The following table summarizes loans by risk rating as of June 30, 2019 (in thousands):

4. Junior Subordinated Debentures

The Company previously issued \$6.2 million of floating rate junior subordinated debentures and has been the sponsor of three wholly owned business trusts: Trust II, Trust III, and FBT CT I. On April 1, 2013, the Company assumed \$5.2 million of floating rate junior subordinated debentures and FBT CT I in conjunction with its acquisition of Fidelity Bancorp, Inc. Prior to redemption, these trusts had issued a total of \$11.0 million of floating rate capital securities (trust preferred securities) to investors and a total of \$341,000 of common securities to the Company. On June 17, 2019, the Company redeemed all of its floating rate junior subordinated debentures held by Trust III at a redemption price of 100% of the outstanding principal amount of \$3.1 million, plus accrued and unpaid interest thereon through the date of redemption. On June 30, 2019, the Company redeemed all of its floating rate junior subordinated debentures held by Trust II at a redemption price of 100% of the outstanding principal amount of \$3.1 million, plus accrued and unpaid interest thereon through the date of redemption. As of June 30, 2019 and December 31, 2018, floating rate junior subordinated debentures were as follows (dollars in thousands):

⁽¹⁾ Interest rate is the earlier of June 30, 2019, or at the date of redemption.

The trust preferred securities represent an interest in the Company's junior subordinated debentures, which were purchased by the business trusts and have substantially the same payment terms as the trust preferred securities. The junior subordinated debentures are the only assets of the trusts and interest payments from the debentures, payable quarterly, finance the distributions paid on the trust preferred securities. The junior subordinated debentures are redeemable prior to the maturity date, at the option of the Company, in whole or in part, subject to the terms of the trust indentures.

5. Leases

The Company determines if an arrangement is a lease at inception of the contract and assesses the appropriate classification as operating or financing. Operating leases with terms greater than one year are included in right-of-use assets and lease liabilities on the Company's consolidated balance sheets. Agreements with both lease and non-lease components are accounted for separately, with only the lease component capitalized. Operating right-of-use assets and lease liabilities are recognized at the commencement date based on the present value of lease payments over the term using the interest rate implicit in the contract, when available, or the Company's incremental collateralized borrowing rate with similar terms.

The Company maintains six operating leases on land and buildings for banking center facilities under long-term leases. These operating leases contain renewal options for periods ranging from three to five years that expire at various dates through October 31, 2031, with no residual value guarantees. Future obligations relating to the exercise of renewal options is included in the measurement if, based on the judgment of management, the renewal option is reasonably certain to be exercised. Factors in determining whether an option is reasonably certain of exercise include, but are not limited to, the value of leasehold improvements, the value of the renewal rate compared to market rates, and the presence of factors that would cause a significant economic penalty to the Company if the option is not exercised. Management reasonably plans to exercise all options, and as such, all renewal options are included in the measurement of the right-of-use assets and operating lease liabilities. As of June 30, 2019, the Company had right-of-use assets of \$4.7 million and lease liabilities of \$4.8 million.

ASC 842, *Leases*, provides several practical expedients available for use in transition. The Company elected to use the standard's package of practical expedients, which allows the use of previous conclusions about lease identification, lease classification, and the accounting treatment for initial direct costs. The Company also elected the short-term lease recognition exemption for all leases with lease terms of one year or less. Therefore, the Company will not recognize right-of-use assets or lease liabilities on the consolidated balance sheets for such leases.

Operating lease expenses for operating leases accounted for under ASC 842, *Leases*, for the three months and six months ended June 30, 2019, were \$137,000 and \$275,000, respectively, and are included as a component of occupancy and equipment expenses within the accompanying consolidated statements of income. Accounting for leases in accordance with ASC 842, *Leases*, has not had a material impact on the consolidated statements of income, and is not expected to in future periods.

The table below summarizes other information related to the Company's operating leases as of and for the six months ended June 30, 2019 (dollars in thousands):

Cash paid for amounts included in measurement of lease liabilities for operating leases	\$	250
Weighted average remaining operating lease term		10.8 years
Weighted average operating lease discount rate		3.4%

Future obligations over the primary and renewal option terms of the Company's long-term operating leases as of June 30, 2019, are as follows (in thousands):

	Amount
6 months remaining in 2019	\$ 250
2020	520
2021	529
2022	537
2023	539
Thereafter	3,354
Total lease payments	5,729
Less: Imputed interest	(956)
Present value of lease liabilities	\$ 4,773

The Company's obligations under financing leases are not material and have not been included in assets and liabilities in the financial statements.

6. Fair Value

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair Value Disclosure

AFS securities and loans HFS are recorded at fair value on a recurring basis. Additionally, the Company may be required to record at fair value other assets on a nonrecurring basis, such as impaired loans, foreclosed assets, and other certain assets. The nonrecurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets.

ASC 820, *Fair Value Measurements and Disclosures*, indicates that assets and liabilities are recorded at fair value according to a fair value hierarchy comprised of three levels:

Level 1 pricing represents quotes on the exact financial instrument that is traded in active markets. Quoted prices on actively traded equities, for example, are in this category.

Level 2 pricing is derived from observable data including market spreads, current and projected rates, prepayment data, and credit quality. The valuation may be based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 pricing is derived without the use of observable data. In such cases, mark-to-model strategies are typically employed. Often, these types of instruments have no active market, possess unique characteristics, and are thinly traded.

The Company used the following methods and significant assumptions to estimate fair value:

Investment Securities and other Stocks: The fair values for marketable securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3).

Loans Held for Sale: Residential mortgage loans originated and held for sale are carried at the lower of cost or estimated fair value on an individual basis. The fair values of mortgage loans HFS are based on commitments on hand from investors within the secondary market for loans with similar characteristics. As such, the fair value adjustments for mortgage loans HFS are recurring Level 2.

Loans Held for Investment: The Company does not record loans HFI at fair value on a recurring basis. However, from time to time, a loan may be considered impaired and an allowance for loan losses may be established. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Once a loan is identified as individually impaired, management measures impairment using estimated fair value methodologies. The fair value of impaired loans is estimated using one of several methods including collateral value, market value of similar debt, enterprise value, liquidation value, and discounted cash flows. When the fair value of the collateral is based on an observable market price or a current appraised value, the Company considers the impaired loan as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company considers the impaired loan as nonrecurring Level 3.

Foreclosed Assets: Foreclosed assets, consisting of properties obtained through foreclosure or in satisfaction of loans, are reported at fair value, determined on the basis of current appraisals, comparable sales, and other estimates of value obtained principally from independent sources, adjusted for estimated selling costs (Level 2). However, foreclosed assets are considered Level 3 in the fair value hierarchy because management has qualitatively applied a discount due to the size, supply of inventory, and the incremental discounts applied to the appraisals. Management also considers other factors, including changes in absorption rates, length of time the property has been on the market, and anticipated sales values, which have resulted in adjustments to the collateral value estimates indicated in certain appraisals.

The table below presents the recorded amount of assets measured at fair value on a recurring basis (in thousands):

7. Regulatory Capital Requirements

The Bank is subject to various regulatory capital requirements administered by the FDIC. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

The Bank is also subject to Basel III capital guidelines. Basel III requires certain minimum ratios in order to be considered adequately capitalized. In addition, a capital conservation buffer, comprised of common equity Tier 1 capital, was established above the minimum regulatory capital requirements. This capital conservation buffer was phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and increased each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. Strict eligibility criteria for regulatory capital instruments were also implemented under Basel III. It is management's belief that, as of June 30, 2019, the Bank met all capital adequacy requirements under Basel III.

The most recent notification from the FDIC (as of March 31, 2018) categorized the Bank as "well capitalized" under the regulatory framework for prompt corrective action. To be classified as "well capitalized", the Bank must maintain minimum

total risk-based capital, Tier I risk-based capital, common equity Tier I capital, and leverage ratios. Management expects that the capital ratios for the Bank under Basel III will continue to exceed the adequately capitalized requirements.

Capital amounts and ratios as of June 30, 2019 and December 31, 2018 for the Bank are presented in the following table (dollars in thousands):

	Regulatory Requirements					
	Actual		Minimum To Be Adequately Capitalized		Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Red River Bank						
June 30, 2019:

Tier I Risk-Based Capital	\$ 198,716	14.73%	\$ 80,934	6.00%	\$ 106,226	7.88%
Common Equity Tier I Capital	\$ 198,716	14.73%	\$ 60,701	4.50%	\$ 85,993	6.38%
Tier I Leverage Capital	\$ 198,716	10.76%	\$ 73,874	4.00%	\$ 92,343	5.00%

As a general matter, bank holding companies are subject to capital adequacy requirements under applicable Federal Reserve regulations. However, bank holding companies which qualify as "small bank holding companies" under the Federal Reserve's Small Bank Holding Company Policy Statement are exempt from the Federal Reserve's capital adequacy guidelines at the holding company level. In May 2018, the Economic Growth Act was enacted, and it increased the asset threshold for "small bank holding companies" from \$1.0 billion to \$3.0 billion. Because the Company has less than \$3.0 billion in assets, it is no longer subject to capital adequacy guidelines on a consolidated basis. Although the minimum regulatory capital requirements are no longer applicable to the Company, the Company calculates these ratios for its own planning and monitoring purposes.

Capital amounts and ratios as of June 30, 2019 and December 31, 2018 for the Company are presented in the following table (dollars in thousands):

	Actual	
	Amount	Ratio

8. Equity Events

IPO

The Company's common stock began trading on May 3, 2019 on the Nasdaq Global Select Market under the symbol "RRBI." On May 7, 2019, the Company completed an IPO of its common stock at a public offering price of \$45.00 per share. A total of 690,000 shares of the Company's common stock were sold in the IPO, of which the Company sold 663,320 shares (including 90,000 shares sold pursuant to the exercise of the underwriters' option to purchase additional shares) and certain shareholders sold 26,680 shares. The Company received net proceeds of \$26.8 million in the offering.

Cash Dividends

As a Louisiana corporation, the Company is subject to certain restrictions on dividends under the Louisiana Business Corporation Act. Generally, a Louisiana corporation may pay dividends to its shareholders unless, after giving effect to the dividend, either: (1) the corporation would not be able to pay its debts as they come due in the usual course of business; or (2) the corporation's total assets would be less than the sum of its total liabilities and the amount that would be needed, if the corporation were to be dissolved at the time of the payment of the dividend, to satisfy the preferential rights of shareholders whose preferential rights are superior to those receiving the dividend. The Company's status as a bank holding company also affects its ability to pay dividends in two additional ways. First, since the Company is a holding company with no material business activities of its own, its ability to pay dividends could become dependent upon the ability of Red River Bank to transfer funds to it in the form of dividends, loans, and advances. The Bank's ability to pay dividends and make other distributions and payments to the Company is itself subject to various legal, regulatory, and other restrictions, and the present and future dividend policy of Red River Bank is subject to the discretion of its board of directors. Second, as a bank holding company, the Company's payment of dividends must comply with the laws, regulations, and policies of the Federal Reserve. The Federal Reserve has issued a supervisory letter on the payment of cash dividends by bank holding companies, which expresses the Federal Reserve's view that a bank holding company should pay cash dividends only to the extent that: (1) the holding company's net income for the past four quarters, net of any dividends previously paid during that period, is sufficient to fully fund the dividends; (2) the prospective rate of earnings retention is consistent with the bank holding company's capital needs, asset quality, and overall financial condition; and (3) the bank holding company will continue to meet, and is not in danger of failing to meet, minimum regulatory capital adequacy ratios.

The ability of Red River Bank to pay dividends on its common stock is restricted by Louisiana Banking Law, the FDIA, and by FDIC regulations. In general, the board of directors of a Louisiana state bank may, quarterly, semiannually, or annually, declare or pay dividends on its outstanding capital stock, provided that the bank has surplus at least equal to 50.0% of its capital stock and such surplus will not be reduced below 50.0% following payment of the dividend. Prior approval of the Louisiana Office of Financial Institutions is required for a Louisiana state bank to pay any dividend that would exceed its net profits earned during the current year combined with its retained net profits of the immediately preceding year. In general terms, the FDIA and FDIC regulations restrict the payment of dividends when a bank is undercapitalized, when a bank has failed to pay insurance assessments, or when there are safety and soundness concerns regarding a bank.

The Bank and the Company have internal policies to not ordinarily pay dividends if following the payment, the entity would not be "well capitalized" under all applicable measurement ratios calculated pursuant to the regulatory capital adequacy guidelines. The exception to this policy is in situations where the payment of a dividend is necessary for the Company to be able to meet its obligations and as long as after such payment the Bank would still be considered "adequately capitalized" under the regulatory capital adequacy guidelines.

Taking into consideration the Company's performance and capital levels, dividends were paid in both 2018 and 2019. In May 2018, the Company paid a cash dividend of \$0.15 per share, adjusted for the 2018 2-for-1 stock split, to shareholders of record as of March 31, 2018. In February 2019, the Company paid a cash dividend of \$0.20 per share to shareholders of record as of January 31, 2019.

Stock split

In 2018, the Board of Directors authorized a 2-for-1 stock split that was accomplished by a stock dividend with a record date of October 1, 2018, whereby each holder of record of the Company's common stock received one additional share of common stock for each share owned as of such date. This transaction is referred to in this report as the 2018 2-for-1 stock split.

9. Earnings Per Common Share

Basic EPS is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during the period, after giving retroactive effect to stock splits. Diluted EPS includes accrued but unissued shares relating to the Director Compensation Program, stock options, and restricted stock using the treasury stock method. The dilutive EPS calculation assumes all outstanding stock options to purchase common stock have been exercised at the beginning of the year and the pro forma proceeds from the exercised options and restricted stock are used to purchase common stock at the average fair market valuation price.

The computations of basic and diluted earnings per common share for the Company were as follows (in thousands, except share amounts):

10. Subsequent Events

On August 8, 2019, the Company redeemed all of its junior subordinated debentures held by FBT CT I at a redemption price of 100% of the outstanding principal amount of \$5.2 million, plus accrued and unpaid interest thereon through the date of redemption. For further details on junior subordinated debentures, see "Note 4 - Junior Subordinated Debentures."

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The purpose of this discussion and analysis is to focus on significant changes in the financial condition of Red River Bancshares, Inc. and our wholly owned subsidiary, Red River Bank, from December 31, 2018 through June 30, 2019 and on our results of operations for the three and six months ended June 30, 2019 and June 30, 2018. This discussion and analysis should be read in conjunction with our audited consolidated financial statements and notes thereto for the year ended December 31, 2018 included in our Prospectus that was filed with the SEC on May 3, 2019, relating to the IPO, and information presented elsewhere in this quarterly report on Form 10-Q, particularly the unaudited consolidated financial statements and related notes appearing in Item 1.

The following discussion contains forward-looking statements that reflect our current views with respect to, among other things, future events and our financial performance. We caution that assumptions, expectations, projections, intentions, or beliefs about future events may, and often do, vary from actual results and the differences can be material. See "Cautionary Note Regarding Forward-Looking Statements." Also, see risk factors and other cautionary statements described under the heading "Risk Factors" included in our Prospectus filed with the SEC on May 3, 2019. We do not undertake any obligation to publicly update any forward-looking statements except as otherwise required by applicable law.

CORPORATE SUMMARY

Red River Bancshares, Inc. was founded in 1998 and is a bank holding company headquartered in Alexandria, Louisiana. Through our wholly owned subsidiary, Red River Bank, a Louisiana state-chartered bank, we provide a fully integrated suite of banking products and services tailored to the needs of our commercial and retail customers.

We operate from a network of 23 banking centers throughout Louisiana and one loan production office in Covington, Louisiana. Banking centers are located in the following markets: Central Louisiana, which includes the Alexandria MSA; Northwest Louisiana, which includes the Shreveport-Bossier City MSA; Southeast Louisiana, which includes the Baton Rouge MSA; and Southwest Louisiana, which includes the Lake Charles MSA.

Our priority is to drive shareholder value through the establishment of a market-leading commercial banking franchise in Louisiana. We provide superior service through highly qualified, relationship-oriented bankers who are committed to their customers and the communities in which we offer our products and services. Our strategy is to expand geographically through the establishment of *de novo* banking centers in new markets and, to a lesser extent, through the acquisition of financial institutions with customer-oriented, compatible philosophies and in desirable geographic areas.

OVERVIEW

In the second quarter of 2019, we completed an IPO of our common stock, and our stock was selected to be included in the Russell 2000 Index. We also redeemed a portion of our junior subordinated debentures, completed the expansion of a new market headquarters building in Baton Rouge, Louisiana, and began providing lending services in a new market.

On May 3, 2019, our common stock began trading on the Nasdaq Global Select Market under the trading symbol "RRBI." On May 7, 2019, we completed an IPO of our common stock with the issuance of 663,320 new shares of common stock at a public offering price of \$45.00 per share. We received net proceeds of \$26.8 million in the offering.

As planned, a portion of the proceeds from the IPO have been used to redeem junior subordinated debentures. In June 2019, \$6.2 million of junior subordinated debentures were redeemed and the associated business trusts were terminated. As of June 30, 2018, we had \$5.2 million of junior subordinated debentures outstanding, which were redeemed on August 8, 2019, and the associated business trust was terminated.

We completed the expansion of a new market headquarters building in Baton Rouge, Louisiana, providing a central office for commercial, mortgage, investment, and private banking department operations in this market.

As part of our organic expansion plan, in the fourth quarter of 2018, we purchased an existing banking center location in Covington, Louisiana (St. Tammany Parish), for future expansion in the Northshore area of Louisiana. In the first quarter of 2019, we hired an experienced banker with extensive knowledge of the St. Tammany community as our area president. On April 3, 2019, we opened a temporary loan production office and began making loans in our newest market. Also in Covington during the second quarter of 2019, we continued remodeling and updating the banking center location that was purchased in 2018. After the renovations to the banking center location are completed, which we expect will be in September of 2019, our plans are to close the LPO and shift our operations into the permanent, full-service banking center.

FINANCIAL CONDITION

General

As of June 30, 2019, total assets were \$1.89 billion which was \$32.3 million, or 1.7%, higher than total assets of \$1.86 billion as of December 31, 2018. Within total assets, compared to December 31, 2018, loans HFI increased by \$64.7 million, AFS securities increased by \$10.2 million, and interest-bearing deposits in other banks decreased by \$46.1 million. For liabilities, deposits decreased \$11.0 million and junior subordinated debentures decreased \$6.2 million between December 31, 2018 and June 30, 2019. As of June 30, 2019, the loans HFI to deposits ratio was 85.23% and the noninterest-bearing deposits to total deposits ratio was 35.30%. Stockholders' equity increased \$44.2 million, mainly due to the \$26.8 million of proceeds from the IPO, net of expenses and underwriting commissions.

Securities

Our securities portfolio is the second largest component of earning assets and provides a significant source of revenue. As of June 30, 2019, our securities portfolio was 17.0% of total assets. It is designed primarily to provide and maintain liquidity, generate a favorable return on investments without incurring unnecessary interest rate and credit risk, and complement our lending activities. As of June 30, 2019, all securities were classified as AFS within the portfolio. We may invest in various types of liquid assets that are permissible under governing regulations and approved by our investment policy, which include U.S. Treasury obligations, U.S. government agency obligations, certificates of deposit of insured domestic banks, mortgage-backed and mortgage-related securities, corporate notes having an investment rating of "A" or better, municipal bonds, and certain equity securities. We do not purchase noninvestment grade bonds or stripped mortgage-backed securities for the portfolio.

Total securities were \$322.0 million as of June 30, 2019, an increase of \$10.3 million, or 3.3%, from \$311.7 million as of December 31, 2018. The \$322.0 million was comprised of \$318.1 million in AFS securities and \$3.9 million in equity securities. Investment activity for the six months ended June 30, 2019, included \$34.9 million of securities purchased, offset by \$33.3 million in maturities, prepayments, and calls. The additional net increase in investments was primarily due to redirecting available short-term assets into the securities portfolio.

The securities portfolio tax-equivalent yield was 2.31% for the six months ended June 30, 2019, compared to 2.16% for the six months ended June 30, 2018. The increase in yield for the six months ended June 30, 2019, compared to the same period for 2018, was primarily due to the purchasing of \$52.6 million of securities from June 30, 2018 to June 30, 2019, at significantly higher yields than the existing portfolio yield at the time of the purchases.

The carrying values of our securities classified as AFS are adjusted for unrealized gain or loss, and any unrealized gain or loss is reported on an after-tax basis as a component of other comprehensive income (loss) in stockholders' equity. Equity securities, consisting of a mutual fund, are carried at fair value on the consolidated balance sheets with periodic changes in value recorded through the consolidated statements of income. As of June 30, 2019, the net unrealized loss of the AFS securities portfolio was \$370,000, or 0.1% of the total carrying value of the portfolio, as compared to a net unrealized loss of \$9.5 million, or 3.0% of the total carrying value of the portfolio, as of December 31, 2018.

The fair value of our equity securities was \$3.9 million with recognized losses of \$76,000 for the six months ended June 30, 2019, compared to \$3.8 million with recognized losses of \$85,000 for the year ended December 31, 2018. Prior to the 2018 adoption of *ASU No. 2016-01, Financial Instruments-Overall (Subtopic 825-10)*, mutual fund securities were included in AFS securities.

The following tables summarize the amortized cost and estimated fair value of our securities by type as of the dates indicated. As of June 30, 2019, other than securities issued by U.S. government agencies or government sponsored enterprises, our securities portfolio did not contain securities of any one issuer with an aggregate book value in excess of 10.0% of our stockholders' equity.

Loan Portfolio

Our loan portfolio is our largest category of earning assets, and interest income earned on our loan portfolio is our primary source of income. We maintain a diversified loan portfolio with a focus on commercial real estate, one-to-four family residential, and commercial and industrial loans. As of June 30, 2019, loans HFI were \$1.39 billion, an increase of \$64.7 million, or 4.9%, compared to \$1.33 billion as of December 31, 2018. New loan origination activity was normal for the first six months and spread across all of our markets, with our newer markets experiencing the most growth. Energy related credits were 2.5% of loans HFI as of June 30, 2019, compared to 2.9% as of December 31, 2018.

Nonperforming Assets

Nonperforming assets consist of nonperforming loans and property acquired through foreclosures or repossession. Nonperforming loans include loans that are contractually past due 90 days or more and loans that are on nonaccrual status. Loans are considered past due when principal and interest payments have not been received as of the date such payments are due.

Loans are placed on nonaccrual status when management determines that a borrower may be unable to meet future contractual payments as they become due. When a loan is placed on nonaccrual status, uncollected accrued interest is reversed, reducing interest income, and future interest income accrual is discontinued. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. Loans are returned to accrual status when the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Asset quality is managed through disciplined underwriting policies, continual monitoring of loan performance, and focused management of nonperforming assets. There can be no assurance, however, that the loan portfolio will not become subject to losses due to declines in economic conditions, deterioration in the financial condition of our borrowers, or a decline in the value of collateral.

Our nonperforming assets to total assets ratio was 0.70% as of June 30, 2019, compared to 0.38% as of December 31, 2018. Total nonperforming assets increased \$6.1 million, or 85.2%, to \$13.2 million as of June 30, 2019 from \$7.1 million as of December 31, 2018. This increase was due to a \$5.7 million increase in loans ninety days or more past due primarily related to secured commercial loans.

Potential Problem Loans

From a credit risk standpoint, we classify loans in one of five categories: pass, special mention, substandard, doubtful, or loss. Loan classifications reflect a judgment about the risk of default and loss associated with the loans. Classifications are reviewed periodically and adjusted to reflect the degree of risk and loss believed to be inherent in each loan. The methodology is structured so that specific reserve allocations are increased in accordance with deterioration in credit quality (and a corresponding increase in risk and loss) or decreased in accordance with improvement in credit quality (and a corresponding decrease in risk and loss). Loans classified as pass are loans with very low to acceptable risk levels based on the borrower's financial condition, financial trends, management strength, and collateral quality. Loans classified as special mention have potential weaknesses that deserve management's close attention. If these weaknesses are not corrected, repayment possibilities for the loan may deteriorate. However, the loss potential does not pose sufficient risk to warrant substandard classification.

Loans classified as substandard have well defined weaknesses which jeopardize normal repayment of principal and interest. Prompt corrective action is required to reduce exposure and to assure adequate remedial actions are taken by the borrower. If these weaknesses do not improve, loss is possible. Loans classified as doubtful have well defined

weaknesses that make full collection improbable. Loans classified as loss are considered uncollectible and charged-off to the allowance for loan losses.

As of June 30, 2019, loans classified as pass were 96.7% of loans HFI and loans classified as special mention and substandard were 2.0% and 1.3%, respectively, of loans HFI. There were no loans as of June 30, 2019 classified as doubtful or loss. As of December 31, 2018, loans classified as pass were 96.7% of loans HFI and loans classified as special mention and substandard were 1.7% and 1.6%, respectively, of loans HFI. There were no loans as of December 31, 2018 classified as doubtful or loss.

Allowance for Loan Losses

The allowance for loan losses represents management's best assessment of potential loan losses and risks inherent in the loan portfolio. It is maintained at a level estimated to be adequate to absorb these potential losses through periodic charges to the provision for loan losses. The amount of the allowance for loan losses should not be interpreted as an indication that charge-offs in future periods will necessarily occur in those amounts, or at all.

The allowance for loan losses is established in accordance with GAAP and consists of specific and general reserves. Specific reserves relate to loans classified as impaired. Loans are considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due in accordance with the contractual terms of the loan. Impaired loans include troubled debt restructurings and performing and nonperforming loans. Impaired loans are reviewed individually, and a specific allowance is allocated, if necessary, based on evaluation of either the fair value of the collateral underlying the loan or the present value of future cash flows calculated using the loan's existing interest rate. General reserves relate to the remainder of the loan portfolio, including overdrawn deposit accounts, and are based on evaluation of a number of factors, such as current economic conditions, the quality and composition of the loan portfolio, loss history, and other relevant factors.

In connection with the review of the loan portfolio, risk elements attributable to particular loan types or categories are considered in assessing the quality of individual loans. Some of the risk elements considered include:

- for commercial real estate loans, the debt service coverage ratio (income from the business in excess of operating expenses compared to loan repayment requirements); operating results of the owner in the case of owner occupied properties; the loan to value ratio; the age and condition of the collateral; and the volatility of income, property value, and future operating results typical of properties of that type;
- for one-to-four family residential mortgage loans, the borrower's ability to repay the loan, including a consideration of the debt to income ratio and employment and income stability; the loan-to-value ratio; and the age, condition, and marketability of the collateral;
- for construction and development loans, the perceived feasibility of the project including the ability to sell developed lots or improvements constructed for resale or the ability to lease property constructed for lease; the quality and nature of contracts for presale or prelease, if any; experience and ability of the developer; and the loan to value ratio; and
- for commercial and industrial loans, the debt service coverage ratio; the operating results of the commercial, industrial, or professional enterprise; the borrower's business, professional, and financial ability and expertise; the specific risks and volatility of income and operating results typical for businesses in that category; the value, nature, and marketability of collateral; and the financial resources of the guarantor(s), if any.

The allowance for loan losses totaled \$13.6 million, or 0.98%, of loans HFI as of June 30, 2019. As of December 31, 2018, the allowance for loan losses totaled \$12.5 million, or 0.94%, of loans HFI. The increase of \$1.1 million was due to the six month provision for loan losses and a slight net recovery position for the period. The increase in commercial charge-offs and recoveries was primarily due to commercial deposit accounts that were charged off and subsequently recovered.

The provision for loan losses for the six months ended June 30, 2019 was \$1.1 million, an increase of \$118,000, or 12.6%, from \$937,000 for the six months ended June 30, 2018. The provision for loans increased primarily as a result of the growth of the loan portfolio.

The following table displays activity in the allowance for loan losses for the periods shown:

We believe the allowance for loan losses was adequate to provide for known and inherent losses in the portfolio at all times shown above. Future provisions for loan losses are subject to ongoing evaluations of the factors and loan portfolio risks described above. A decline in market area economic conditions, deterioration of asset quality, or growth in portfolio size could cause the allowance to become inadequate and material additional provisions for loan losses could be required.

Deposits

We offer a variety of deposit products designed to attract and retain consumer, commercial, and public entity customers. These products consist of noninterest and interest-bearing checking accounts, savings accounts, money market accounts, and time deposit accounts. Deposits are gathered from individuals, partnerships, corporations, and public entities located primarily in our market areas. We do not have any internet-sourced or brokered deposits.

Total deposits decreased \$11.0 million, or 0.7%, to \$1.63 billion as of June 30, 2019 from \$1.65 billion as of December 31, 2018. Noninterest-bearing deposits increased by \$29.1 million, or 5.3%, to \$576.9 million due to normal fluctuations in customer account balances and adding new accounts. Noninterest-bearing deposits as a percentage of total deposits were 35.3% as of June 30, 2019, compared to 33.3% as of December 31, 2018. Interest-bearing deposits decreased by \$40.0 million, or 3.6%, to \$1.06 billion with the largest decrease in NOW accounts. The NOW account decrease was primarily due to public entity customers utilizing their annual funds over the year.

Junior Subordinated Debentures

The Company has been the sponsor of three wholly owned business trusts that were established for the purpose of issuing trust preferred securities. Prior to their redemption, the trust preferred securities accrued and paid distributions periodically at specified quarterly rates as provided in each trust agreement. The trusts used the net proceeds from each of the offerings to purchase a like amount of our floating rate junior subordinated debentures. The debentures were the sole assets of the trusts. Our obligations under the debentures and related documents, taken together, constituted a full and unconditional guarantee by us of the obligations of the trusts. Prior to redemption, a portion of these instruments qualified as Tier 1 capital under applicable regulatory capital rules. The trust preferred securities were mandatorily redeemable upon maturity of the debentures, or upon earlier redemption as provided in the indentures. We had the right to redeem the debentures in whole or in part on or after specific dates at a redemption price specified in the indentures governing the debentures plus any accrued but unpaid interest to the redemption date. As anticipated, we used a portion of the proceeds of the IPO to fully redeem Trust II and Trust III in the second quarter of 2019 and FBT CT I in the third quarter. On June 17, 2019, we redeemed all of our floating rate junior subordinated debentures held by Trust III at a redemption price of 100% of the outstanding principal amount of \$3.1 million, plus accrued and unpaid interest thereon through the date of redemption. On June 30, 2019, we redeemed all of our floating rate junior subordinated debentures held by Trust II at a redemption price of 100% of the outstanding principal amount of \$3.1 million, plus accrued and unpaid

interest thereon through the date of redemption. On August 8, 2019, we redeemed all of our floating rate junior subordinated debentures held by FBT CT I at a redemption price of 100% of the outstanding principal amount of \$5.2 million, plus accrued and unpaid interest thereon through the date of redemption. Having redeemed the debentures prior to maturity, we incurred approximately \$50,000 in expenses during the second quarter of 2019.

The following table is a summary of the terms of our floating rate junior subordinated debentures as of June 30, 2019 and December 31, 2018:

⁽¹⁾ On April 1, 2013, we assumed \$5.2 million of floating rate junior subordinated debentures and FBT CT I in conjunction with the acquisition of Fidelity Bancorp, Inc.

⁽²⁾ The trust preferred securities had a variable rate and repriced quarterly based on three-month LIBOR plus 3.25%, with the last reprice date on March 28, 2019.

⁽³⁾ The trust preferred securities had a variable rate and repriced quarterly based on three-month LIBOR plus 1.97%, with the last reprice date on March 13, 2019.

⁽⁴⁾ The trust preferred securities had a variable rate and repriced quarterly based on three-month LIBOR plus 3.00%, with the last reprice date on April 29, 2019.

⁽⁵⁾ Interest rate is the earlier of June 30, 2019, or at the date of redemption.

Equity and Regulatory Capital Requirements

Total stockholders' equity as of June 30, 2019, was \$237.9 million, compared to \$193.7 million as of December 31, 2018, an increase of \$44.2 million, or 22.8%. This increase was attributable to the \$26.8 million of proceeds from the IPO, net of expenses and underwriting commissions, that was completed on May 7, 2019, net income for the six months ended June 30, 2019 of \$11.2 million, and a \$7.2 million, net of tax, market adjustment to AOCI related to AFS securities, partially offset by \$1.3 million in cash dividends.

As of June 30, 2019 and December 31, 2018, Red River Bank was in compliance with all applicable regulatory capital requirements, and was classified as "well capitalized," for purposes of the prompt corrective action regulations. As we deploy our capital and continue to grow our operations, our capital levels may decrease depending on our level of earnings. However, we expect to monitor and control our growth in order to remain in compliance with all regulatory capital standards applicable to us.

RESULTS OF OPERATIONS

Net income for the second quarter of 2019 was \$5.5 million, or \$0.78 per diluted common share, an increase of \$6,000, or 0.1%, compared to \$5.5 million, or \$0.82 per diluted common share, in the second quarter of 2018, adjusted to give effect to the 2018 2-for-1 stock split. The increase in net income is due to a \$1.1 million increase in net interest income, a \$434,000 increase in noninterest income, offset by a \$1.5 million increase in operating expenses. Our efficiency ratio for the second quarter of 2019 was 62.81% compared to 60.05% for the second quarter of 2018.

Net income for the six months ended June 30, 2019, was \$11.2 million, or \$1.63 per diluted common share, an increase of \$471,000, or 4.4%, compared to \$10.8 million, or \$1.59 per diluted common share, for the six months ended June 30, 2018, adjusted to give effect to the 2018 2-for-1 stock split. The increase in net income is due to a \$2.6 million increase in net interest income, a \$572,000 increase in noninterest income, offset by a \$2.3 million increase in operating expenses. Our efficiency ratio for the six months ended June 30, 2019, was 61.20% compared to 60.21% for the six months ended June 30, 2018.

Net Interest Income

Our operating results depend primarily on our net interest income. Fluctuations in market interest rates impact the yield on interest-earning assets and the rate paid on interest-bearing liabilities. Changes in the amount and type of interest-earning assets and interest-bearing liabilities also impact our net interest income. To evaluate net interest income, we measure and monitor: (1) yields on loans and other interest-earning assets; (2) the costs of deposits and other funding sources; (3) net interest spread; and (4) net interest margin. Since noninterest-bearing sources of funds, such as noninterest-bearing deposits and stockholders' equity, also fund interest-earning assets, net interest margin includes the benefit of these noninterest-bearing funding sources.

Net interest income increased by \$1.1 million, or 7.4%, to \$15.7 million for the three months ended June 30, 2019, from \$14.6 million for the three months ended June 30, 2018. Net interest income improved as a result of a six basis point increase in the net interest margin, on an FTE basis, to 3.51% for the three months ended June 30, 2019, from 3.45% for the three months ended June 30, 2018, combined with a \$96.0 million, or 5.7%, increase in average interest-earning assets between the second quarter of 2019 and 2018. The net interest margin benefited from the higher interest rate environment in the second quarter of 2019 compared to the second quarter of 2018. The average yield on interest-earning assets for the three months ended June 30, 2019, was 4.05%, a 22 basis point increase from 3.83% for the same period in 2018, while the average cost of deposits for the three months ended June 30, 2019, was 0.60%, 17 basis points higher than the 0.43% cost of deposits for the same period in 2018.

The following table presents average balance sheet information, interest income, interest expense, and the corresponding average yields earned and rates paid for the three months ended June 30, 2019 and 2018. Nonaccrual loans are included in the following table as loans carrying a zero yield.

Rate/Volume Analysis

Increases and decreases in interest income and interest expense result from changes in average balances (volume) of interest-earning assets and interest-bearing liabilities, as well as changes in average interest rates. The following table presents the dollar amount of changes in interest income and interest expense for major components of interest-earning assets and interest-bearing liabilities. It distinguishes between the changes related to outstanding balances and those due to changes in interest rates. The change in interest attributable to rate has been determined by applying the change in rate between periods to average balances outstanding in the earlier period. The change in interest due to volume has been determined by applying the rate from the earlier period to the change in average balances outstanding between periods. For purposes of this table, changes attributable to both rate and volume that cannot be segregated have been allocated to rate.

Provision for Loan Losses

The provision for loan losses is a charge to income necessary to maintain the allowance for loan losses at a level considered appropriate by management. Factors impacting the provision include loan portfolio growth, changes in the quality and composition of the loan portfolio, the level of nonperforming loans, delinquency and charge-off trends, and current economic conditions. The provision for loan losses for the three months ended June 30, 2019 was \$529,000, an increase of \$3,000, or 0.6%, from \$526,000 for the three months ended June 30, 2018. The provision for loan losses for the six months ended June 30, 2019 was \$1.1 million, an increase of \$118,000, or 12.6%, from \$937,000 for the six months ended June 30, 2018. The provision for loan losses increased during the three month and six month periods ended June 30, 2019 primarily as a result of the growth of the loan portfolio.

The allowance for loan losses to loans HFI was 0.98% as of June 30, 2019, compared to 0.89% as of June 30, 2018.

Noninterest Income

Our primary sources of noninterest income are service charges on deposit accounts, debit card fees, fees related to the sale of mortgage loans, brokerage income from advisory services, and other loan and deposit fees. Noninterest income increased \$434,000 to \$4.1 million for the three months ended June 30, 2019, compared to \$3.7 million for the three months ended June 30, 2018. The increase in noninterest income was mainly due to higher other income and to a change in equity securities mark-to-market amount.

Noninterest income increased \$572,000 to \$7.4 million for the six months ended June 30, 2019, compared to \$6.8 million for the six months ended June 30, 2018. The increase in noninterest income was due to higher other income, a change in equity securities mark-to-market amount, higher loan and deposit income, and higher mortgage loan income. These increases were partially offset by lower deposit service charge income.

The table below presents, for the periods indicated, the major categories of noninterest income:

Other income increased by \$267,000 for the quarter ended June 30, 2019 compared to the same quarter prior year. Other income includes revenue from an SBIC limited partnership of which Red River Bank is a member. Income for the SBIC limited partnership increased \$306,000, to \$376,000, including a \$214,000 dividend, for the three months ended June 30, 2019, compared to \$70,000, with no dividends, for the three months ended June 30, 2018.

Other income increased by \$309,000 for the six months ended June 30, 2019 compared to the six months ended June 30, 2018. The increase in other income was mainly due to higher income from the SBIC limited partnership. SBIC limited partnership distributions and dividends totaled \$496,000, including \$214,000 of dividends, for the six months ended June 30, 2019, compared to \$179,000, with no dividends, for the six months ended June 30, 2018.

The gain or loss on equity securities is a mark-to-market adjustment primarily driven by a change in the interest rate environment. Equity securities had a mark-to-market gain of \$56,000 for second quarter of 2019, compared to a \$93,000 loss for the second quarter of 2018 due to fluctuations in market rates between the quarters.

Equity securities had a mark-to-market gain of \$104,000 for the six months ended June 30, 2019, compared to a \$93,000 loss for the same period in 2018 due to fluctuations in market rates between the periods.

Loan and deposit income increased \$130,000 for the six months ended June 30, 2019 compared to the same period in 2018 as a result of credit card income increasing by \$99,000. Credit card income improved due to having a larger number of credit cards outstanding and more credit card transaction volume in 2019.

For the six months ended June 30, 2019, mortgage loan income increased \$119,000 compared to the same period in 2018 as a result of a higher dollar amount of mortgage loans closed.

Service charges on deposit accounts decreased 9.3% for the six months ended June 30, 2019, compared to the same period prior year. The decrease is mainly due to a system change relating to overdraft processing on electronic transactions that was made in late 2018, which resulted in lower deposit income in the six months ended June 30, 2019. In June 2019, other deposit fees were implemented to replace the decrease in deposit revenue.

Operating Expenses

Operating expenses are composed of all employee expenses and costs associated with operating our facilities, obtaining and retaining customer relationships, and providing services. Operating expenses increased \$1.5 million to \$12.4 million, for the three months ended June 30, 2019, compared to \$10.9 million for the three months ended June 30, 2018, and increased \$2.3 million to \$23.6 million, for the six months ended June 30, 2019, compared to \$21.3 million for the six

months ended June 30, 2018. The increase in both periods was mainly due to higher personnel, occupancy, advertising, loan and deposit, and other taxes expenses.

The following table presents, for the periods indicated, the major categories of operating expenses:

	For the Three Months Ended				For the Six Months Ended			
	June 30,				June 30,			
	2019	2018	Increase (Decrease)		2019	2018	Increase (Decrease)

Legal and professional expenses	383	344	39	11.3%	702	668	34	5.1%
Other operating expenses	1,121	1,047	74	7.1%	2,075	1,907	168	8.8%
Total operating expenses	<u>\$ 12,404</u>	<u>\$ 10,947</u>	<u>\$ 1,457</u>	13.3%	<u>\$ 23,562</u>	<u>\$ 21,255</u>	<u>\$ 2,307</u>	10.9%

Personnel expenses increased \$516,000 to \$7.0 million for the three months ended June 30, 2019, compared to the three months ended June 30, 2018, and increased \$1.0 million to \$13.6 million for the six months ended June 30, 2019, compared to the six months ended June 30, 2018. As of June 30, 2019 and 2018, we had 325 and 316 full-time equivalent employees, respectively, with an increase of nine full-time equivalent employees. The increase in personnel was related to an increase in back office staff to support increasing volumes and to prepare to operate as a public company, as well as personnel for the Covington area. Also, revenue-based commission compensation increased during the first six months of 2019 due to higher mortgage and brokerage income.

Occupancy and equipment expenses increased \$253,000 to \$1.3 million for the second quarter of 2019 compared to the second quarter of 2018, and increased \$348,000 to \$2.5 million for the six months ended June 30, 2019, compared to the six months ended June 30, 2018. The increase in both periods was due to banking location improvements and expansion throughout Louisiana. In the second quarter of 2018, a small LPO in the Southwest (Lake Charles) market was closed and replaced with a larger banking center location resulting in higher occupancy expenses in 2019. In 2019, we expanded the market headquarters building in the Southeast (Baton Rouge) market, providing a central office for commercial, mortgage, investment, and private banking department operations. In the second quarter of 2019, approximately \$130,000 of nonrecurring occupancy expenses relating to the completion of the Baton Rouge headquarters building were incurred. On April 3, 2019, we opened an LPO in a new market, Northshore (Covington, Louisiana), resulting in a full quarter of occupancy expenses.

Advertising expense increased \$185,000 to \$396,000 for the second quarter of 2019 compared to the second quarter of 2018, and increased \$219,000 to \$605,000 for the six months ended June 30, 2019, compared to the six months ended June 30, 2018. The increase in both periods was due to more media campaigns and marketing events in our newer markets.

Loan and deposit expenses increased \$170,000 to \$392,000 for the second quarter of 2019 as compared to the second quarter of 2018. The increase is a result of incurring approximately \$76,000 of nonrecurring loan development expenses in the second quarter of 2019 relating to the new Covington LPO. Additionally, the second quarter of 2018 benefited from a \$66,000 reimbursement of collection expenses on a loan and the receipt of a \$31,000 negotiated rebate from a vendor, resulting in lower loan and deposit expenses for that period.

Loan and deposit expenses increased \$213,000 to \$615,000 for the six months ended June 30, 2019 as compared to the first six months of 2018, mainly due to approximately \$76,000 of nonrecurring loan development expenses incurred in the second quarter of 2019 with the new Covington LPO. Additionally, the six months ended June 30, 2018 benefited from a \$66,000 reimbursement of collection expenses on a loan and the receipt of a \$71,000 negotiated rebate from a vendor, resulting in lower loan and deposit expenses during that period.

Other taxes increased \$106,000 to \$455,000 for the second quarter of 2019 as compared to the second quarter of 2018, and increased \$117,000 to \$808,000 for the six months ended June 30, 2019, as compared to the six months ended June 30, 2018. The increase in both periods was due to higher State of Louisiana bank stock tax. Bank stock tax increased due to having higher deposit account balances and higher net income for the applicable tax years.

In conjunction with the redemption of the junior subordinated debentures in the second quarter of 2019, the Company incurred \$12,000 of nonrecurring legal and professional expenses and \$38,000 of nonrecurring other operating expenses.

Income Tax Expense

The amount of income tax expense is influenced by the amounts of our pre-tax income, tax-exempt income, and other nondeductible expenses. Deferred tax assets and liabilities are reflected at currently enacted income tax rates in effect for the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Our effective income tax rates have differed from the U.S. statutory rate due to the effect of tax-exempt income from loans, securities and life insurance policies, and the income tax effects associated with stock-based compensation.

For the three months ended June 30, 2019 and 2018, income tax expense totaled \$1.3 million and \$1.2 million, respectively. Our effective income tax rates for the three months ended June 30, 2019 and 2018, were 18.8% and 18.1%, respectively.

For the six months ended June 30, 2019 and 2018, income tax expense totaled \$2.6 million and \$2.3 million, respectively. Our effective income tax rates for the six months ended June 30, 2019 and 2018, were 19.1% and 17.9%, respectively.

LIQUIDITY AND ASSET-LIABILITY MANAGEMENT

Liquidity

Liquidity involves our ability to raise funds to support asset growth and potential acquisitions or to reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements, and otherwise to operate on an ongoing basis and manage unexpected events. For the six months ended June 30, 2019, and the year ended December 31, 2018, liquidity needs were primarily met by core deposits, security and loan maturities, and cash flows from amortizing security and loan portfolios. In addition, we used a portion of the proceeds received in the IPO to redeem our junior subordinated debentures. For more information on these redemptions, see "Financial Condition - Junior Subordinated Debentures."

Our primary source of funds is deposits, and our primary use of funds is the funding of loans. Our securities portfolio is another alternative source for meeting liquidity needs. Securities generate cash flow through principal payments and maturities, and they generally have readily available markets that allow for their conversion to cash. As of June 30, 2019, AFS securities totaled \$318.1 million compared to \$307.9 million as of December 31, 2018. Additionally, we maintain four federal funds lines of credit with commercial banks that provided for the availability to borrow up to an aggregate of \$95.0 million as of June 30, 2019 and December 31, 2018. There were no outstanding funds under these lines of credit as of June 30, 2019 or December 31, 2018. Other sources available for meeting liquidity needs include FHLB advances as well as repurchase agreements. As of June 30, 2019 and December 31, 2018, our net borrowing capacity from the FHLB was \$565.8 million and \$427.6 million, respectively. We had no borrowings from the FHLB, and we had not utilized any repurchase agreements, as of June 30, 2019 or December 31, 2018.

Our average loans, including average loans HFS, increased \$46.3 million or 3.5% for the six months ended June 30, 2019, as compared to average loans for the twelve months ended December 31, 2018. Our average deposits increased \$60.6 million, or 3.8%, for the six months ended June 30, 2019, as compared to the average deposits for the twelve months ended December 31, 2018.

As of June 30, 2019, we had \$245.3 million in outstanding commitments to extend credit and \$11.6 million in commitments associated with outstanding standby letters of credit. As of December 31, 2018, we had \$231.5 million in outstanding commitments to extend credit and \$11.6 million in commitments associated with outstanding standby letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding commitments may not necessarily reflect the actual future cash funding requirements.

For the six months ended June 30, 2019 and the year ended December 31, 2018, we had no exposure to known future cash requirements or capital expenditures of a material nature. As of June 30, 2019, we had cash and cash equivalents of \$101.6 million compared to \$151.9 million as of December 31, 2018. The decrease of \$50.3 million, or 33.1%, was primarily due to funding of loans during the six months ended June 30, 2019.

Interest Rate Sensitivity and Market Risk

As a financial institution, our primary component of market risk is interest rate volatility. Our asset-liability management policies provide management with guidelines for effective funds management, and we have established a measurement system for monitoring our net interest rate sensitivity position.

Our exposure to interest rate risk is managed by Red River Bank's Asset-Liability Management Committee. The committee formulates strategies based on appropriate levels of interest rate risk and monitors the results of those strategies. In determining the appropriate level of interest rate risk, the committee considers the impact on both earnings and capital given the current outlook on interest rates, regional economies, liquidity, business strategies, and other related factors.

On a quarterly basis, we run various simulation models including a static balance sheet and dynamic growth balance sheet. These models test the impact on net interest income and fair value of equity from changes in market interest rates under various scenarios. Under the static and dynamic growth models, rates are shocked instantaneously and ramped rates change over a 12-month and 24-month horizon based upon parallel yield curve shifts. Parallel shock scenarios assume instantaneous parallel movements in the yield curve compared to a flat yield curve scenario. Our nonparallel rate shock model involves analysis of interest income and expense under various changes in the shape of the yield curve.

Internal policy regarding interest rate risk simulations performed by our risk model currently specifies that for instantaneous parallel shifts of the yield curve, estimated net interest income at risk for the subsequent one-year period should not decline by more than 10.0% for a 100 basis point shift and 15.0% for a 200 basis point shift. Internal policy regarding economic value at risk simulations currently specifies that for instantaneous parallel shifts of the yield curve, estimated fair value of equity for the subsequent one-year period should not decline by more than 20.0% for a 100 basis point shift and 25.0% for a 200 basis point shift.

The following table shows the impact of an instantaneous and parallel change in rates, at the levels indicated, and summarizes the simulated change in net interest income and fair value of equity over a 12-month horizon as of the dates indicated.

	As of June 30, 2019		As of December 31, 2018	
	% Change in Net Interest Income	% Change in Fair Value of Equity	% Change in Net Interest Income	% Change in Fair Value of Equity
Change in Interest Rates (Basis Points)				
+300	17.7 %	9.7 %	19.2 %	7.1 %
+200	12.0 %	7.4 %	12.9 %	5.1 %
+100	6.1 %	4.2 %	6.6 %	3.0 %
Base	0.0 %	0.0 %	0.0 %	0.0 %
-100	(6.2)%	(7.8)%	(6.6)%	(5.0)%
-200	(12.0)%	(20.3)%	(14.6)%	(13.4)%

The results above, as of June 30, 2019 and December 31, 2018, demonstrate that our balance sheet is asset sensitive. The assumptions incorporated into the model are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model's simulated results due to timing, magnitude, and frequency of interest rate changes, as well as changes in market conditions and the application and timing of various management strategies.

NON-GAAP FINANCIAL MEASURES

Our accounting and reporting policies conform to GAAP and the prevailing practices in the banking industry. Certain financial measures used by management to evaluate our operating performance are discussed in this report as supplemental non-GAAP performance measures. In accordance with the SEC's rules, we classify a financial measure as being a non-GAAP financial measure if that financial measure excludes or includes amounts, or is subject to adjustments that have the effect of excluding or including amounts, that are included or excluded, as the case may be, in the most directly comparable measure calculated and presented in accordance with GAAP as in effect from time to time in the U.S. in the statements of income, balance sheets, or statements of cash flows. Non-GAAP financial measures do not include operating and other statistical measures or ratios or statistical measures calculated using exclusively either financial measures calculated in accordance with GAAP, operating measures or other measures that are not non-GAAP financial measures, or both.

The non-GAAP financial measures that we discuss in this report should not be considered in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. Moreover, the manner in which we calculate the non-GAAP financial measures that are discussed in this report may differ from that of other companies reporting measures with similar names. It is important to understand how such other banking organizations calculate and name their financial measures similar to the non-GAAP financial measures discussed in this report when comparing such non-GAAP financial measures.

We provide these measures in addition to, not as a substitute for, net income and earnings per share, which are reported in adherence to GAAP. Management and the board of directors review tangible book value per share and tangible common equity to tangible assets as part of managing operating performance. We believe that these non-GAAP performance measures, while not substitutes for GAAP net income, earnings per share, and total expenses, are useful for both management and investors when evaluating underlying operating and financial performance and its available resources.

Tangible Book Value Per Common Share. Tangible book value per common share is a non-GAAP measure commonly used by analysts and investors to evaluate financial institutions. We believe that this measure is important to many investors in the marketplace who are interested in changes from period to period in book value per common share exclusive of changes in intangible assets. We calculate tangible book value per common share as total stockholders' equity, less intangible assets, divided by the outstanding number of shares of our common stock at the end of the relevant period. Intangible assets have the effect of increasing total book value while not increasing tangible book value. The most directly comparable GAAP financial measure for tangible book value per common share is book value per common share.

Tangible Common Equity to Tangible Assets. Tangible common equity to tangible assets is a non-GAAP measure generally used by investors, financial analysts, and investment bankers to evaluate financial institutions. We believe that this measure is important to many investors in the marketplace who are interested in the relative changes from period to period of tangible common equity to tangible assets, each exclusive of changes in intangible assets. Intangible assets have the effect of increasing both total stockholders' equity and assets while not increasing our tangible common equity or tangible assets. We calculate tangible common equity as total stockholders' equity, less intangible assets, net of accumulated amortization, and we calculate tangible assets as total assets, less intangible assets, net of accumulated amortization. The most directly comparable GAAP financial measure for tangible common equity to tangible assets is total common stockholders' equity to total assets.

As a result of previous acquisitions, we have a small amount of intangible assets. As of June 30, 2019, total intangible assets were \$1.5 million, which is less than 1.0% of total assets.

The following table reconciles, as of the dates set forth below, stockholders' equity to tangible common equity, and assets to tangible assets, and presents related resulting ratios.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Quantitative and qualitative disclosures about market risk are presented in the Company's Prospectus that was filed with the SEC on May 3, 2019, relating to its IPO under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition - Interest Rate Sensitivity and Market Risk." Additional information as of June 30, 2019, is included herein under Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition - Interest Rate Sensitivity and Market Risk."

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

As of the end of the period covered by this report, an evaluation was performed by the Company, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) were effective as of the end of the period covered by this report.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter of 2019 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, the Company, including its subsidiaries, may become involved in various legal matters arising in the normal course of business. In the opinion of management, neither the Company, nor any of its subsidiaries, is involved in any legal proceeding the resolution of which is expected to have a material adverse effect on the Company's consolidated results of operations, financial condition, or cash flows. However, one or more unfavorable outcomes in any claim or litigation against the Company or its subsidiaries could have a material adverse effect for the period in which they are resolved. In addition, regardless of their merits or ultimate outcomes, such matters are costly, divert management's attention, and may materially and adversely affect the reputation of the Company or its subsidiaries, even if resolved favorably.

Item 1A. Risk Factors

For information regarding risk factors that could affect the Company's business, financial condition, and results of operations, see the heading "Risk Factors" in the Company's Prospectus filed with the SEC on May 3, 2019, relating to its IPO. There have been no material changes to the risk factors disclosed in the Prospectus.

Item 2. Unregistered Sales of Equity Securities and the Use of Proceeds

On May 7, 2019, the Company sold 663,320 new shares of its common stock at a public offering price of \$45.00 per share in its IPO, including 90,000 shares sold pursuant to the exercise of the underwriters' option to purchase additional shares in the offering. The offer and sale of shares in the IPO were registered under the Securities Act pursuant to a registration statement on Form S-1 (File No. 333-230798), which the SEC declared effective on May 2, 2019. FIG Partners, LLC and Stephens Inc. acted as underwriters. The offering commenced on May 3, 2019 and did not terminate until the sale of all of the shares offered. There has been no material change in the planned use of proceeds from the Company's IPO as described in the Company's Prospectus filed with the SEC on May 3, 2019, pursuant to Rule 424(b)(4) under the Securities Act.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

RESTRICTED STOCK AWARD AGREEMENT

Subject to the terms and conditions of the Notice of Restricted Stock Award (the “**Notice**”), this Restricted Stock Award Agreement (this “**Award Agreement**”), and the Red River Bancshares, Inc. 2018 Equity Incentive Plan (the “**Plan**”), Red River Bancshares, Inc., a Louisiana corporation (the “**Company**”) hereby grants the individual set forth in the Notice (the “**Participant**”) the number of Shares set forth in the Notice (the “**Restricted Shares**”). Unless otherwise specifically indicated, all terms used in this Award Agreement shall have the meaning as set forth in the Notice or the Plan.

1. Vesting Schedule and Risk of Forfeiture.

(a) Vesting Schedule. Subject to the Participant’s continuous status with the Company or the Bank as a Service Provider and any other limitations set forth in the Notice, the Plan or this Award Agreement, the Restricted Shares shall vest in accordance with the Vesting Schedule provided in the Notice.

(b) Risk of Forfeiture. The Restricted Shares shall be subject to a risk of forfeiture until such time the risk of forfeiture lapses in accordance with the Vesting Schedule. All or any portion of the Restricted Shares subject to a risk of forfeiture shall automatically be forfeited and immediately returned to the Company if the Participant’s continuous status as a Service Provider is interrupted or terminated for any reason other than as permitted under the Notice or this Award Agreement. Additionally, and notwithstanding anything in the Notice or this Award Agreement to the contrary, the vested and unvested Restricted Shares shall be forfeited if the Participant’s continuous status as a Service Provider is terminated: (i) by the Company or the Bank for Cause; (ii) as a result of Employee’s resignation, or as a result of Employee’s retirement prior to reaching the age of sixty-five (65); (iii) or if the Participant breaches (as determined by the Board) any provisions of the Notice, this Award Agreement or the Plan. The Company shall implement any forfeiture under this Section 1 in a unilateral manner, without the Participant’s consent, and with no payment to the Participant, cash or otherwise, for any Restricted Shares that are forfeited pursuant to this Section 1(b). Upon forfeiture, neither Participant, nor any successors, heirs, assigns, or legal representatives of Employee shall thereafter have any rights or interest in the unvested Restricted Shares, which shall terminate on the date of forfeiture.

2. Transfer Restrictions. The Restricted Shares issued to the Participant hereunder may not be sold, transferred by gift, pledged, hypothecated, or otherwise transferred or disposed of by the Participant (other than by will or by the laws of descent or distribution) prior to the date when the Restricted Shares become vested pursuant to the Vesting Schedule. Any attempt to transfer Restricted Shares in violation of this Section 2 shall be null and void and shall be disregarded. The terms of the Plan, the Notice and this Award Agreement shall be binding upon the executors, administrators, heirs, successors and assigns of the Participant.

3. Escrow of Restricted Shares. The Restricted Shares shall be represented by uncertificated shares designated for the Participant in book-entry registration on the records of the Company's transfer agent or, at the discretion of the Company, by a stock certificate issued and registered in the Participant's name, in each case subject to the restrictions set forth in the Plan and this Award Agreement. Any book-entry uncertificated shares or stock certificates evidencing the Restricted Shares shall be held in escrow by the Company until the Vesting Date. The Company (or its designee) shall have the authority to take all such actions and to effectuate all such transfers and/or releases as may be necessary or appropriate to accomplish the objectives of this Award Agreement in accordance with the terms hereof. The Participant hereby acknowledges that the appointment of the Company (or its designee) as the escrow holder with respect to certificated Restricted Shares hereunder with the stated authorities is a material inducement to the Company to enter into this Award Agreement and that such appointment is coupled with an interest and is accordingly irrevocable. The Participant agrees that such escrow holder shall not be liable to any party for any actions or omissions unless such escrow holder is grossly negligent relative thereto. Upon request by Participant, the Company shall issue and deliver to Participant a stock certificate (or electronic equivalent for uncertificated shares) evidencing any Restricted Shares that have vested in accordance with the Vesting Schedule, subject to satisfaction of any withholding obligations provided in Section 6 below, and reissue a stock certificate or certificates evidencing any remaining unvested Restricted Shares to be held by the Company in accordance with the terms of this Award Agreement.

4. Additional Securities. Any securities or cash received as the result of an adjustment provided for in Section 15 of the Plan (the "**Additional Securities**") shall be retained in escrow in the same manner and subject to the same conditions and restrictions as the Restricted Shares with respect to which they were issued, including the Vesting Schedule. If the Additional Securities consist of a convertible security, the Participant may exercise any conversion right, and any securities so acquired shall constitute Additional Securities. In the event of any change in certificates (or electronic equivalent for uncertificated shares) evidencing the Restricted Shares or the Additional Securities by reason of any transaction under Section 15 of the Plan, the escrow holder is authorized to deliver to the issuer the certificates (or electronic equivalent for uncertificated shares) evidencing the Restricted Shares or Additional Securities in exchange for the certificates or book-entry uncertificated shares of the replacement securities.

5. Distributions; Other Rights. The Company shall disburse to the Participant all regular cash dividends with respect to the Restricted Shares and Additional Securities, whether vested or otherwise, less the amount to satisfy any applicable withholding obligations, on the same payment date dividends are disbursed to other stockholders of the Company. Such dividends shall be fully vested on the date the dividends are disbursed and shall not be subject to the Vesting Schedule. From and after the Grant Date, Participant shall have voting rights with respect to the Restricted Shares, which shall terminate with respect to any Restricted Shares that are forfeited in accordance with the terms of this Award Agreement.

6. Taxes. The Participant hereby acknowledges and understands that he or she may suffer adverse tax consequences as a result of the Participant's receipt of (or purchase of), vesting in, or disposition of, the Restricted Shares.

(a) Representations. The Participant has reviewed with his or her own tax advisors the tax consequences of this Award Agreement and the Restricted Shares granted hereunder, including any U.S. federal, state and local tax laws, and any other applicable taxing jurisdiction. The Participant is relying solely on such advisors and not on any statements or representations of the Company or any of its agents. The Participant hereby acknowledges and understands that he or she (and not the Company nor the Bank) shall be responsible for his or her own tax liability that may arise as a result of his or her receiving this Award Agreement and the Restricted Shares granted hereunder.

(b) Section 83(b) Election. The Participant hereby acknowledges that he or she has been informed that if he or she makes a timely election (the “**Election**”) pursuant to Section 83(b) of the Code to be taxed currently on any difference between the Fair Market Value of the Restricted Shares and any purchase price paid, this will result in a recognition of taxable income to the Participant on the date the Restricted Shares were granted. Absent such an Election, taxable income will be measured and recognized by the Participant at the time or times on which the Restricted Shares become vested. The Participant is strongly encouraged to seek the advice of his or her own tax consultants in connection with the Restricted Shares granted pursuant to the Plan and this Award Agreement, and the advisability of filing the Election under Section 83(b) of the Code. THE PARTICIPANT ACKNOWLEDGES THAT IT IS THE PARTICIPANT’S SOLE RESPONSIBILITY AND NOT THE COMPANY’S OR ANY AFFILIATE TO TIMELY FILE THE ELECTION UNDER SECTION 83(b) OF THE CODE, EVEN IF THE PARTICIPANT REQUESTS THE COMPANY, AFFILIATE OR THEIR REPRESENTATIVE TO MAKE THIS FILING ON THE PARTICIPANT’S BEHALF.

(c) Withholding Taxes. To the extent that the vesting or receipt of Restricted Shares or the lapse of any restrictions results in income to Participant for federal or state tax purposes, Participant shall deliver to the Company at the time of such receipt or lapse, as the case may be, such amount of money or Shares of Common Stock of the Company received upon vesting of the Restricted Shares or otherwise owned by Participant, at Participant’s election, as the Company may require to meet its obligation under applicable tax laws or regulations, and, if Participant fails to do so, the Company is authorized to withhold from the Shares of Common Stock deliverable as a result of the vesting of the Restricted Shares or from any cash or other form of remuneration then or thereafter payable to Participant an amount equivalent to any tax required to be withheld by reason of such resulting compensation income.

7. Legality of Initial Issuance. No Restricted Shares shall be issued unless and until the Committee has determined that: (i) the Company and the Participant have taken all actions required to register the Restricted Shares under the Securities Act or to perfect an exemption from the registration requirements thereof, if applicable; (ii) all applicable listing requirements of any stock exchange or other securities market on which the Restricted Shares are listed has been satisfied; and (iii) any other applicable provision of state or U.S. federal law or other Applicable Law has been satisfied.

8. Restrictive Legends. If a share certificate is issued, such share certificate evidencing the Restricted Shares issued hereunder, if applicable, shall be endorsed with the following legends (in addition to any legend required under applicable U.S. federal, state securities laws and under any other Applicable Law):

THE SHARES REPRESENTED BY THIS CERTIFICATE MAY NOT BE SOLD, ASSIGNED, TRANSFERRED, ENCUMBERED OR IN ANY MANNER DISPOSED OF, EXCEPT IN COMPLIANCE WITH THE TERMS OF A RESTRICTED STOCK AGREEMENT BETWEEN THE CORPORATION AND THE INITIAL HOLDER OF THE RESTRICTED STOCK. THE RESTRICTED STOCK AGREEMENT PROVIDES FOR FORFEITURE OF THE STOCK IN CERTAIN CIRCUMSTANCES, AND IMPOSES RESTRICTIONS ON THE TRANSFER OF THESE SHARES. THE RESTRICTED STOCK AGREEMENT IS ON DEPOSIT AT THE PRINCIPAL OFFICE OF THE CORPORATION AND WILL BE FURNISHED BY THE CORPORATION TO THE REGISTERED HOLDER HEREOF UPON WRITTEN REQUEST.

However, in instances where Restricted Shares are represented by uncertificated shares, this Section 8 shall apply only to the extent administratively practical.

9. Restrictions on Transfer.

(a) Stop-Transfer Notices. The Participant agrees that, in order to ensure compliance with the restrictions referred to herein and applicable law, the Company may issue appropriate “stop transfer” instructions to its transfer agent, if any, and that, if the Company transfers its own securities, it may make appropriate notations to the same effect in its own records.

(b) Rights of the Company. The Company shall not (i) record on its books the transfer of any Restricted Shares that have been sold or transferred in contravention of this Award Agreement or (ii) treat as the owner of Restricted Shares, or otherwise to accord voting, dividend or liquidation rights to, any transferee to whom Restricted Shares have been transferred in contravention of this Award Agreement. Any transfer of Restricted Shares not made in conformance with this Award Agreement shall be null and void and shall not be recognized by the Company.

10. Notice. Any notice required by the terms of this Award Agreement shall be given in writing and shall be deemed to be effective upon personal delivery or upon deposit with the United States Postal Service, by registered or certified mail, with postage and fees prepaid. Notice shall be addressed to the Company at its principal executive office and to the Participant at the address that he or she most recently provided to the Company.

11. Successors and Assigns. Except as provided herein to the contrary, this Award Agreement shall be binding upon and inure to the benefit of the parties to this Award Agreement, their respective successors and permitted assigns.

12. Assignment. Except as otherwise provided in this Award Agreement, the Participant shall not assign any of his or her rights under the Notice or this Award Agreement without the prior written consent of the Company, which consent may be withheld in its sole discretion. The Company shall be permitted to assign its rights or obligations under the Notice or this Award Agreement, but no such assignment shall release the Company of its obligations pursuant to the Notice or this Award Agreement.

13. Construction; Severability. The captions used in this Award Agreement are inserted for convenience and shall not be deemed to be a part of the Award Agreement for construction or interpretation. Except where otherwise indicated by the context, the singular shall include the plural and the plural shall include the singular. Use of the term “or” is not intended to be exclusive, unless the context clearly requires otherwise. The validity, legality or enforceability of the remainder of this Award Agreement shall not be affected even if one or more of the provisions of this Award Agreement shall be held to be invalid, illegal or unenforceable in any respect.

14. Administration and Interpretation. Any determination by the Committee in connection with any question or issue arising under the Notice, the Plan or this Award Agreement shall be final, conclusive and binding on the Participant, the Company and all other persons. Any question or dispute regarding the interpretation of this Award Agreement or the receipt of the Restricted Shares or Shares hereunder shall be submitted by the Participant to the Committee. The resolution of such question or dispute by the Committee shall be final and binding on all parties.

15. Counterparts. This Award Agreement may be signed in multiple counterparts, each of which shall be deemed an original, and all counterparts hereof so signed by the parties hereto, whether or not such counterpart shall bear the execution of each of the parties hereto, shall be deemed to be, and is to be construed as, one and the same Award Agreement. A facsimile or electronic scan in a “.pdf” format transmission of a signed counterpart of this Award Agreement shall be sufficient to bind the party or parties whose signature(s) appear thereon.

16. Entire Agreement; Governing Law; and Amendments. The provisions of the Plan and the Notice are incorporated herein by reference. The Plan, the Notice and this Award Agreement constitute the entire agreement of the parties with respect to the subject matter hereof and supersede in their entirety all prior undertakings and agreements of the Company and the Participant with respect to the subject matter hereof, and may not be modified adversely to the Participant’s interest except by means of a writing signed by the Company and the Participant. This Award Agreement is governed by the laws of the State of Louisiana applicable to contracts executed in and to be performed in that State.

17. Venue. The Company, the Participant and the Participant’s executors, administrators, heirs, successors and assigns agree that any suit, action or proceeding arising out of or related to the Notice, this Award Agreement or the Plan shall be brought in a court of competent jurisdiction in Rapides Parish, Louisiana and that all parties shall submit to the jurisdiction of such court. and that all parties shall submit to the jurisdiction of such court. The parties irrevocably waive, to the fullest extent permitted by law, any objection the party may have to the laying of venue for any such suit, action or proceeding brought in such court. If any one or more provisions of this Section 17 shall for any reason be held invalid or unenforceable, it is the specific intent of the parties that

such provisions shall be modified to the minimum extent necessary to make it or its application valid and enforceable.

18. No Guarantee of Continued Service. THE PARTICIPANT ACKNOWLEDGES AND AGREES THAT THE VESTING OF SHARES PURSUANT TO THE VESTING SCHEDULE HEREOF IS EARNED ONLY BY CONTINUOUS STATUS AS A SERVICE PROVIDER AT THE WILL OF THE COMPANY OR THE BANK (NOT THROUGH THE ACT OF BEING HIRED OR ACQUIRING SHARES HEREUNDER). THE PARTICIPANT FURTHER ACKNOWLEDGES AND AGREES THAT THIS AWARD AGREEMENT, THE COVERED SHARES GRANTED HEREUNDER, THE TRANSACTIONS CONTEMPLATED HEREUNDER AND THE VESTING SCHEDULE SET FORTH HEREIN DO NOT CONSTITUTE AN EXPRESS OR IMPLIED PROMISE OF CONTINUED ENGAGEMENT AS A SERVICE PROVIDER FOR THE VESTING PERIOD, FOR ANY PERIOD, OR AT ALL, AND SHALL NOT INTERFERE IN ANY WAY WITH THE PARTICIPANT'S RIGHT OR THE COMPANY'S, THE BANK'S OR THEIR RESPECTIVE AFFILIATE'S RIGHT TO TERMINATE THE PARTICIPANT'S RELATIONSHIP AS A SERVICE PROVIDER AT ANY TIME, WITH OR WITHOUT CAUSE.

19. Waiver. Failure to insist upon strict compliance with any of the terms, covenants, or conditions hereof will not be deemed to be a waiver of such term, covenant, or condition, nor will any waiver or relinquishment of, or failure to insist upon strict compliance with, any right or power hereunder at any one or more times be deemed to be a waiver or relinquishment of such right or power at any other time or times.
