Legal Disclosures

Statements in this presentation regarding our expectations and beliefs about our future financial performance and financial condition, as well as trends in our business, interest rates, and markets, are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements often include words such as “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “project,” “outlook,” or words of similar meaning, or future or conditional verbs such as “will,” “would,” “should,” “could,” or “may.” The forward-looking statements in this presentation are based on current information and on assumptions that we make about future events and circumstances that are subject to a number of risks and uncertainties that are often difficult to predict and beyond our control. As a result of those risks and uncertainties, our actual financial results in the future could differ, possibly materially, from those expressed in or implied by the forward-looking statements contained in this presentation and could cause us to make changes to our future plans. Additional information regarding these and other risks and uncertainties to which our business and future financial performance are subject is contained in the section titled “Risk Factors” in our most recent Annual Report on Form 10-K and any subsequent quarterly reports on Form 10-Q, and in other documents that we file with the SEC from time to time. In addition, our actual financial results in the future may differ from those currently expected due to additional risks and uncertainties of which we are not currently aware or which we do not currently view as, but in the future may become, material to our business or operating results. Due to these and other possible uncertainties and risks, readers are cautioned not to place undue reliance on the forward-looking statements contained in this presentation or to make predictions based solely on historical financial performance. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law. All forward-looking statements, express or implied, included in this presentation are qualified in their entirety by this cautionary statement.

This presentation includes industry and trade association data, forecasts, and information that we have prepared based, in part, upon data, forecasts, and information obtained from independent trade associations, industry publications and surveys, government agencies, and other information publicly available to us, which information may be specific to particular markets or geographic locations. Some data is also based on our good faith estimates, which are derived from management’s knowledge of the industry and independent sources. Industry publications, surveys, and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Statements as to our market position are based on market data currently available to us. Although we believe these sources are reliable, we have not independently verified the information. While we are not aware of any misstatements regarding our industry data presented herein, our estimates involve risks and uncertainties and are subject to change based on various factors. Similarly, we believe our internal research is reliable, even though such research has not been verified by any independent sources.

Our accounting and reporting policies conform to United States GAAP and the prevailing practices in the banking industry. Certain financial measures used by management to evaluate our operating performance are discussed as supplemental non-GAAP performance measures. In accordance with SEC rules, we classify a financial measure as being a non-GAAP financial measure if that financial measure excludes or includes amounts, or is subject to adjustments that have the effect of excluding or including amounts, that are included or excluded, as the case may be, in the most directly comparable measure calculated and presented in accordance with GAAP as in effect from time to time in the U.S.

Management and the board of directors review tangible book value per share, tangible common equity to tangible assets, and realized book value per share as part of managing operating performance. However, these non-GAAP financial measures should not be considered in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. Moreover, the manner we calculate the non-GAAP financial measures that are discussed may differ from that of other companies reporting measures with similar names. It is important to understand how such other banking organizations calculate and name their financial measures similar to the non-GAAP financial measures discussed by us when comparing such non-GAAP financial measures.

A reconciliation of non-GAAP financial measures to the comparable GAAP financial measures is included in the Appendix to this presentation.

Growth Strategies

De Novo Growth Strategy

- Disciplined, targeted expansions for profitable growth
- Target markets with significant disruption by competitors
- Concentrate on urban markets with growth potential
- Focus on markets where market share is held by large national and regional banks
- Hire experienced leadership from the market to build a team
- Offer an authentic, full-service, relationship-based community bank experience
- Establish presence initially with an LDPO then build or buy and remodel a banking center

Disciplined Acquisition Strategy

- Successfully integrated two acquisitions
- Positioned to capitalize on future opportunities

Historical Asset Growth Method

As of March 31, 2025

Guiding Principles

Relationship-Driven Client Focus

Our relationship-driven client focus and consistent lending philosophy results in loyal loan customers who also provide stable core deposits.

Experienced Bankers

In addition to a cohesive, long-tenured executive management team, we enjoy the benefits of an experienced group of client-facing bankers, which has resulted in steady, diversified, organic loan growth, combined with excellent quality metrics.

Conservative Credit Culture

Our founding management team developed the initial credit culture, predicated upon conservative underwriting principles carried over from regional bank experience. This same team has overseen the implementation and periodic adjustment of these core lending tenets over a 26-year time frame.

“Footprint” Lending

We have a low level of participations purchased and shared national credits. Our loan portfolio is well below CRE portfolio concentration guidelines and lower than the CRE portfolio of peers. Our portfolio is further characterized by modest hold limits, strong oversight, and rapid response to problem loan resolution.

Consistent Lending Standards

Fundamental goals continue to include disciplined, profitable growth, broad diversification, high-quality performance, and consistent underwriting standards.

Embracing Technology

- In 1Q25, RRB upgraded online and mobile banking platforms using Q2 Software's market leading products. These systems have enhanced RRB's digital offerings for both consumer and business customers
 - Allows RRB to offer a unified user experience across multiple platforms
 - Further enhances our Treasury Management feature offering
 - Better aligns RRB with a roadmap for enhanced digital products and services
- As part of our new online and mobile banking rollout, we partnered with Allied Payments to offer a new, more robust consumer and business bill pay product
- Online and mobile banking channels: mobile deposit, virtual vault, Apple Pay, mobile wallet, debit card controls, and P2P payments provided by Zelle[®]
- SQN Banking Systems' fraud detection system, which uses anomaly detection to detect fraud
- Online deposit account opening and mortgage applications, which include a "Verification of Life" system in an effort to reduce fraud
- Mobile, automated small-dollar loan system
- Implemented MeridianLink for internal end-to-end consumer loan application system
- Completed our core system upgrade to improve efficiency and accuracy, and to streamline operations
- Utilizing API for automation of processes to improve our efficiency and manage headcount
- Invested in the JAM FINTOP Banktech fund as a resource for technology systems

Net Income	\$ 34,235	\$ 34,879	\$ (644)	(1.8%)

- Interest and dividend income benefited from the higher interest rate environment and an improved asset mix.
- Interest expense increased due to high deposit rates through 3Q24, combined with larger balances in higher cost deposit accounts.
- Provision for credit losses increased due to the recent inflationary environment, changing monetary policy, current economic forecasts, and loan growth.
- Mortgage loan income increased due to an increase in the average loan amount, which generated higher mortgage loan fee income.
- SBIC income decreased due to the sale of an investment by the SBIC in 2023, which resulted in increased distributions.

NIM Opportunities - Apr to Dec 2025

- Solid loan pipeline
- Redeploy investment cash flows into higher yielding assets. \$80.0 million yielding 3.28%
- Reprice maturing loans into slightly higher yielding loans. \$162.2 million of fixed rate loans yielding 6.15%
- Reduce transaction deposit rates
- Reprice 2Q25 maturing time deposits into lower yielding products. \$253.6 million of maturing time deposits with average rate of 4.06%
- Growth opportunity in new and legacy markets

NIM Challenges

- Uncertainty regarding future interest rate environment
- Uncertainty regarding economic environment, tariffs, and trade
- Impact of possible lower interest rate environment
- Competition for new loans and loan pricing challenges
- Deposit rate pressures
- Uncertainty regarding customer deposit activity

Expectations

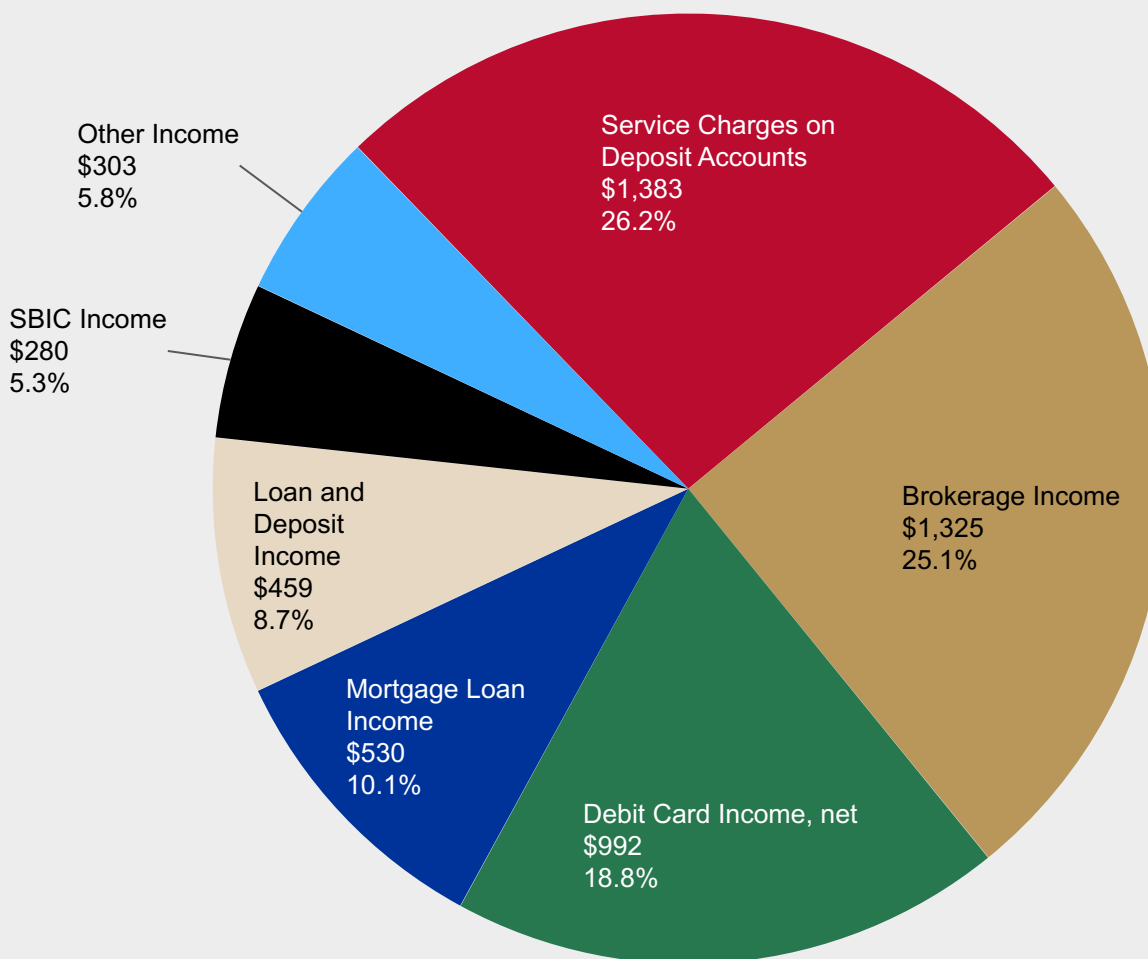

- Net interest income and net interest margin projected to remain fairly consistent for the remainder of 2025.

Noninterest Income (1Q25 vs. 4Q24)

- Noninterest income increased \$277,000 to \$5.3 million for 1Q25
- Brokerage income increased \$401,000 to \$1.3 million for 1Q25 due to increased investing activity by clients
- Equity securities had a gain of \$44,000 for 1Q25 compared to a loss of \$91,000 for 4Q24
- Mortgage loan income decreased \$122,000 to \$530,000 for 1Q25 due to decreased purchase activity
- SBIC income decreased \$66,000 to \$280,000 for 1Q25 due to lower normal income received from these partnerships
 - We expect SBIC income to be lower in future quarters due to fund value fluctuations
